

WASHABLE REUSABLE AFFORDABLE PADS (WRAPS)

Thanks to donations like this one, we have provided reproductive education and WRAPS kits - which include pads, a wet bag and underwear - to thousands of young women.

So many girls have to miss school when they are on their periods because disposable feminine hygiene products are either not available or not affordable. The WRAPS project (washable, reusable, affordable pads) gives girls the freedom to continue with their daily activities. This project is a win-win because it also employs Ethiopian women to make the WRAPS! We're thankful to be partnered with Allison Karnes for this project. WRAPS is so simple and so profound. For \$15 per kit we can empower girls and promote education.

Mothers with a for Ethiopia

has made a donation to DevXchange International in honour of you!

This donation will help to fund the WRAPS project in Ethiopia.

Mothers With a Heart for Ethiopia is an organization that funds seven Devxchange projects focusing on empowering women, supporting children and promoting education in Ethiopia.
